

Trapezoid desk for nursery school h681_33

Trapezoidal table for nurseries (0-3 years) in solid FSC beech and birch with scratch-resistant and fireproof magnolia HPL top. Dim. 130x65x42 cm.

The **trapezoid table h681_33** is a technical furnishing element designed specifically for the **0-3 age group**. Its trapezoidal geometry is designed to maximize the versatility of educational spaces in **nurseries** and **nursery schools**, allowing the creation of modular configurations that favor frontal interaction between educator and child or collaboration in small groups. The structure without underlying frames optimizes ergonomic legroom, ensuring comfort and freedom of movement during play and educational activities.

Technical characteristics

- **Dimensions:** 130 x 65 x h 42 cm.
- **Supporting structure:** 4 turned legs in **solid FSC beech wood** (diameter 60 mm) treated with non-toxic water-based transparent varnishes.
- **Fastening system:** mechanical coupling with threaded pin and recessed bush on a **patented tear-proof plate** in high-resistance plastic material.
- **Worktop:** birch plywood in class E1 (thickness 21 mm) with double visible rounded full-radius edging.
- **Coating:** 9/10 thick **HPL (High Pressure Laminate)**, matte finish, scratch-resistant and fireproof in **Class 1** reaction to fire.
- **Color:** magnolia with polished natural wood edges.
- **Base:** adjustable noise-reducing thermoplastic polymer glides for floor protection and leveling.
