

Tray clearing trolley h22053

Professional double-column tray trolley in **chrome-nickel steel**. Capacity **16 trays** (2 x 8 configuration) for **GN 1/1** or standard canteen formats (443x343 mm). Equipped with ergonomic handle, 125 mm wheels with brake and top shelf with barrier.

The **chrome-nickel steel tray trolley** is the ideal solution for intensive handling within school canteens, corporate canteens, and cooking centers. Thanks to its double-column structure, it allows bilateral loading of **16 trays** in total, ensuring a fast and organized workflow during both meal distribution and dirty tray recovery.

The spacing between shelves of **145 mm** is among the widest in its category, allowing it to accommodate trays complete with plates, glasses, and jugs without risk of bumps. The trolley is extremely versatile: it perfectly accommodates both the **Gastronorm 1/1** format and classic **standardized canteen trays** (443x343 mm). The presence of an ergonomic side handle and 125 mm wheels ensures excellent maneuverability even at full load, while the top shelf with barrier offers a safe storage space for additional accessories.
