

Tray discharge hopper h314_42

Tray discharge hopper with 150 mm raised top, swinging door and hinged door. Ideal for canteens, fast food and self-service.

Tray discharge hopper designed for collective catering and self-service environments where the customer independently manages the disposal of dishes and residues. It allows the customer to **empty the tray independently** and place it on a protected support surface, reducing the workload of the staff and improving the organization of the service.

The structure is characterized by a **top with backslash on three sides** that holds the trays in a safe position during passage, preventing accidental slipping.

Technical features

- Support surface with protective backslash on 3 sides, height 150 mm
- Swinging door for easy tray discharge
- Hinged door for housing the waste bin
- Dimensions: L. 600 x D. 600 x H. 1300 mm
- Weight: 36 kg
- Waste bin not included in the kit (must be purchased separately)
