

Tray rack trolley for restaurants and catering h220_304

Professional stainless steel pastry trolley with high capacity (18 levels 60x40 cm). Robust structure (53x68x189 cm) with double safety lock and front/rear pass-through loading.

The **professional stainless steel tray rack trolley** is the ultimate vertical solution for pastry laboratories, bakeries and catering businesses that need to maximize storage space. Designed to accommodate up to **18 trays of 600 x 400 mm**, this model stands out for its extreme operational practicality: thanks to the **pass-through loading** structure, it is possible to insert or remove trays from both sides, drastically speeding up workflows. Safety during movement is guaranteed by a double locking system (front and rear) that prevents accidental slipping of the load. Entirely made of stainless steel with a reinforced frame, it ensures long-lasting durability and superior resistance to corrosion.

Technical specifications
