

Tray rack trolley h110_160

Stainless steel tray rack trolley for 15 GN 1/1 containers (38x55x170 cm). Solid structure with braking wheels, ideal for catering and canteens.

The **professional tray rack trolley** is a technical solution designed to optimize internal logistics in the kitchens of restaurants, hotels, and collective canteens. Made entirely of **stainless steel**, this tool guarantees excellent resistance to corrosion and ease of sanitizing, meeting the rigorous hygiene standards of the food sector. The vertical structure allows for housing up to **15 GN 1/1 containers**, maximizing storage capacity in an extremely small footprint. Thanks to the integrated wheels, two of which are equipped with a braking system, the trolley solves the problem of safe handling of gastronomic preparations, allowing a smooth transition between cooking, blast chilling, and service areas.

Technical features

- **Material:** high-resistance stainless steel
- **Capacity:** 15 Gastronorm GN 1/1 containers
- **Total dimensions:** W. 38 x D. 55 x h. 170 cm
- **Weight:** 19 kg
- **Handling:** 4 multidirectional wheels, 2 of which are equipped with a parking brake
- **Configuration:** built-in model for space optimization
- **Assembly:** easy-to-assemble kit
