

Tray rack trolley h215_227

Compact stainless steel tray rack trolley (46x61x90 cm) with 10 storage levels. Professional load capacity of 180 kg, robust structure and galvanized swivel wheels.

The **professional stainless steel tray rack trolley** is the compact and ultra-resistant solution designed to optimize logistics and work organization in hotels, restaurants, canteens and gastronomic laboratories. Despite its compact dimensions, this model offers **10 storage levels**, allowing for the management of significant loads in a minimal footprint. Made entirely of **stainless steel**, it guarantees high resistance to corrosion and rapid sanitization, fundamental requirements for compliance with HACCP standards. The structure is completed by four galvanized swivel wheels that ensure smooth and precise maneuverability, facilitating the transport of preparations even in environments with limited maneuvering space.

Technical features

- **Material:** high-density professional stainless steel
- **Capacity:** 10 tray supports
- **Distance between supports:** 69 mm (ideal for constant ventilation)
- **Maximum load:** 180 kg (reinforced structure for heavy loads)
- **Total dimensions:** L. 46.3 x D. 61.5 x h. 90 cm
- **Movement:** 4 high-smoothness galvanized swivel wheels
- **Operating weight:** 16 kg (lightweight but extremely stable)
