

Tray rack trolley h220_382

Professional **double-column** service trolley in **stainless steel** with a capacity of **20 GN 1/1 containers**. Robust and slender structure, equipped with swivel wheels for smooth movement in canteens and fast-food outlets. Total load capacity 80 kg.

The **professional stainless steel service trolley** is the ideal logistical solution for managing large volumes of containers in high-traffic contexts such as company canteens, schools, and fast-food outlets. Thanks to its double-column configuration, this model allows for vertical space optimization, offering **20 storage levels** for Gastronorm 1/1 containers.

The entire stainless steel structure guarantees maximum hygiene and resistance to corrosion, fundamental requirements for equipment in contact with food. The distance between the shelves of **12 cm** has been designed to allow for easy insertion of containers, even with lids or tableware. Despite its significant dimensions (height 184 cm), the trolley is extremely maneuverable thanks to its **4 swivel wheels** of 10 cm, which allow for quick and effortless changes of direction.

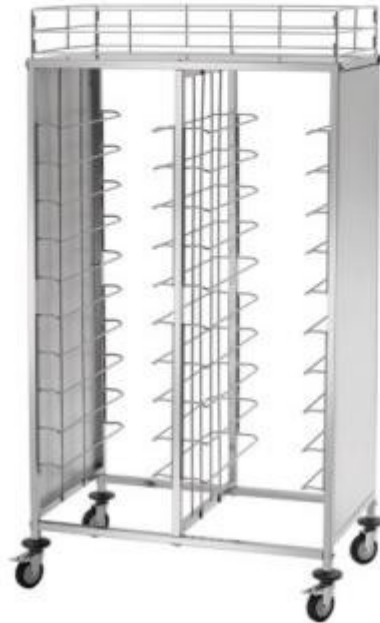

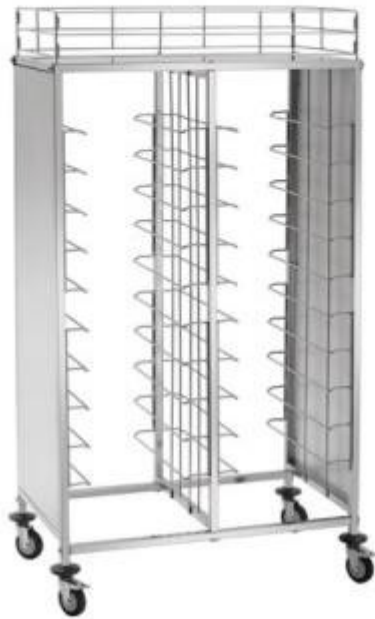

Technical characteristics

- **Material:** Professional stainless steel
- **Capacity:** 20 Shelves (for GN 1/1 containers)
- **Distance between shelves:** 120 mm
- **Maximum total load:** 80 kg
- **Movement:** 4 swivel wheels (Ø 100 mm)
- **Total dimensions:** W 115.5 x D 68 x H 184 cm
- **Net weight:** 40 kg
- **Design:** Double column for flow optimization

* GN containers not included. Solid structure designed for intensive use.

INFORMATION

- **capacity** 80 kg
- **Height in millimetres** 1840.000000
- **Width in millimetres** 1155.000000
- **Depth in millimetres** 680.000000
