

Tray transport trolley for hotels h712_54

Professional tray trolley in chrome steel for 15 containers or 30 GN 2/1 trays (67x59x171 cm). High capacity, safety bracket and anti-shock wheels Ø 12 cm.

The **high-capacity professional tray trolley** is the ideal solution for hotels, canteens and large restaurants that need to move significant volumes of meals in total safety. Made with a sturdy **chrome steel** structure, this model is specifically designed for the **GN 2/1** standard, offering exceptional loading flexibility: it can accommodate up to **15 containers** or **30 trays**. To ensure maximum stability during transport, the trolley is equipped with a **non-slip safety bracket** that locks the containers in position. The base is equipped with oversized 12 cm wheels with an anti-shock protection system, ideal for protecting the structure and kitchen furnishings during fast maneuvers.
