Tray transport trolley h215_210

Professional high-capacity stainless steel tray trolley. Accommodates 18 trays (GN 2/1, 1/1, 2/4 formats) with a load capacity of 180 kg. Equipped with 125 mm oversized wheels.

The **professional stainless steel tray trolley** is the versatile and robust solution designed to optimize workflows in bakeries, pastry shops, motorway service areas, and cooking centers. Thanks to its universal structure, this model solves the problem of multi-format storage, being compatible with **GN 2/1, 1/1, and 2/4** trays. Made entirely of stainless steel, it guarantees superior structural strength and impeccable ease of sanitation, meeting the strictest hygienic standards (HACCP). Movement is handled by 125 mm galvanized wheels, which ensure a smooth push even at full load, while the integrated braking system allows for safe parking during loading and unloading phases.
