

Tray trolley 400 x 600 mm h462_20

Stainless steel pastry trolley 20 levels for 400x600 mm trays. Structure with welded runners, 250 kg capacity and 125 mm industrial wheels.

The **professional Euronorm tray trolley** is a “heavy duty” solution designed for intensive use in pastry shops, bakeries and cooking centers. Made entirely of **stainless steel**, this model stands out for its superior construction quality: the 25x25 mm square tube uprights and **argon-welded runners** guarantee a monolithic structural solidity, ideal for supporting loads up to **250 kg**. Designed to accommodate 20 trays of 400x600 mm with insertion from the short side (400 mm), it optimizes vertical space and ensures maximum safety thanks to the integrated stop bars on each level.

Technical features

- **Material:** Stainless steel (resistant and hygienic)
