

Tray Trolley capacity 10 GN 1/1 trays panelled on three sides h2200155

Professional single-column tray trolley in **AISI 304 stainless steel**, panelled on **3 sides** (sides and back) with a top shelf equipped with a **small rail**. Capacity **10 GN 1/1 trays**, robust structure and hygienic design ideal for restaurant rooms, canteens and clinics.

The **professional tray trolley panelled on three sides** is the excellent solution for catering facilities that pay maximum attention to hygiene and aesthetic presentation. Thanks to the complete enclosure with **stainless steel sheet panels** (two lateral and one posterior), the load is protected from dust and external contamination, while ensuring an orderly appearance in the room as it hides dirty dishes from view.

The structure is made of prestigious **AISI 304 stainless steel**, with 2x2 cm square tube and bolted crossbeams that ensure non-deformable structural solidity. This model is equipped with a functional **top shelf with safety rail**, transforming the upper part of the trolley into a convenient support surface for service materials. Maneuverability is smooth and precise thanks to the 12.5 cm swivelling wheels and non-marking grey rubber corner bumpers, which protect the walls during movement.

Technical features

- **Structure material:** AISI 304 Stainless Steel (square tube section 2x2 cm)
- **Panelling:** 3 Stainless steel panels (2 sides + 1 back)
- **Top Shelf:** Integrated support surface with safety rail
