

Tray Trolley capacity 12 EN trays h2200150

Professional single-column tray trolley in **stainless steel**. Capacity **12 EN format trays** (53x37 cm), robust square tube structure and 12.5 cm swivel wheels. Ideal for restaurants, canteens and pastry laboratories.

The **professional tray trolley** is a versatile and resistant logistical solution, designed to optimize service in restaurants, canteens and gastronomic laboratories. Built entirely in **stainless steel**, this model guarantees the highest hygiene standards and excellent durability even in intense work environments. The structure is made of square tube (2x2 cm section) with bolted crossbars, a technical choice that ensures maximum rigidity and prevents oscillations at full load.

The trolley is configured to accommodate **12 EN format (Euronorm) trays** with dimensions of 53x37 cm. The "L"-shaped stainless steel sheet guides allow for smooth insertion, while the **11 cm pitch** between levels provides the necessary space for transporting trays with plates or already portioned products. Maneuverability is entrusted to four 12.5 cm swivel wheels, protected by **gray rubber corner bumpers** to safeguard the furniture and walls of the structure during movements.

Technical characteristics

- **Structure material:** Stainless steel in square tube (2x2 cm section)
- **Assembly:** Bolted crossbars (superior stability)
- **Guides:** "L" profile in stainless steel sheet
- **Capacity:** 12 EN format (Euronorm) trays
- **Tray dimensions:** 53 x 37 cm
- **Distance between levels (Pitch):** 11 cm
- **Movement:** 4 swivel wheels Ø 12.5 cm
- **Protection:** Non-marking gray rubber corner bumpers
- **Max overall dimensions:** W 49 x D 60 x H 172 cm
- **Optional accessories:** Set of 2 wheels with brake available

* Trays not included. Product compliant with HACCP regulations for the food sector.
