

Tray trolley for canteens capacity 20 GN trays h314_67

Professional **double-column** tray trolley in **AISI 304 stainless steel**. Capacity **20 GN trays**, robust structure in 20x20 mm square tube and 125 mm wheels with bumpers. The ideal solution for high-traffic canteens and fast-food outlets requiring maximum hygiene and large load capacity.

The **AISI 304 stainless steel double-column tray trolley** is the ultimate logistical solution for managing large volumes of trays in professional environments. Designed to optimize workflows in company canteens, schools, and fast-food outlets, this model allows for the precise organization of up to **20 GN trays**, halving transport times between the dining area and the kitchen.

The structure is made entirely of **18/10 stainless steel** with 20x20 mm square tube, ensuring excellent structural solidity while maintaining a manageable weight of 18 kg. Reinforced 18/10 steel runners are distributed over two side-by-side columns, maximizing storage capacity at an ergonomic height of 154 cm. At the base, the 4 swivel castors of 125 mm with **circular rubber bumpers** ensure smooth and silent movement, while protecting walls and furniture from impacts.

Technical features

- **Structure material:** 18/10 AISI 304 Stainless Steel (20x20 mm square tube)
- **Runner material:** 18/10 Stainless Steel
- **Capacity:** 20 GN trays (10+10 configuration)
- **Movement:** 4 swivel castors Ø 125 mm
- **Protection:** Non-marking rubber corner bumpers
- **Total dimensions:** W 800 x D 600 x H 1540 mm
- **Net weight:** 18 kg
- **Optional:** Wheel kit with brake available on request

** Trays not included. Structure designed to meet the most rigorous HACCP standards.*

INFORMATION

- **capacity** 20 trays
- **Height in millimetres** 1540.000000
- **Width in millimetres** 800.000000
- **Depth in millimetres** 600.000000
