

Tray trolley for fast food, capacity 10 GN trays h314_65

Professional single-column tray trolley in **AISI 304 stainless steel**. Capacity **10 GN trays**, robust 20x20 mm square tube structure and 125 mm wheels with bumpers. The choice of excellence for canteens and fast-food restaurants requiring maximum hygiene and durability.

The **AISI 304 stainless steel tray trolley** is an indispensable tool for the logistical management of canteens, fast-food outlets and large kitchens. Designed for those who need to organize trays with order and precision, this model allows for the optimization of operational spaces while ensuring safe and hygienic food handling.

The structure is made entirely of **18/10 stainless steel** with a 20x20 mm square tube, a construction choice that gives the trolley superior sturdiness despite its low weight of only 12 kg. The reinforced runners are calibrated to accommodate **10 Gastronorm format trays**. The base is equipped with 4 swivel wheels of 125 mm, fitted with **rubber bumpers** to absorb any accidental impacts against walls or furniture, preserving the integrity of the structure and the premises.
