

Tray trolley for restaurants capacity 24 trays h314_70

Professional **double-column** tray trolley made of **AISI 304 stainless steel**. Capacity **24 Euronorm (EN) trays**, sturdy square tube structure with "L" rails and 125 mm wheels equipped with brake. The ideal solution for canteens and fast-food outlets requiring large capacity and maximum hygiene.

The **AISI 304 stainless steel double-column tray trolley** is the logistical solution of excellence for managing large volumes of trays in professional environments. Designed to optimize workflows in company canteens, cooking centers and fast-food outlets, this model allows organizing up to **24 Euronorm trays** with stability and precision, utilizing a slender vertical design that minimizes floor space.

The structure is entirely built in **18/10 stainless steel** (20x20 mm square tube), a material that guarantees total immunity to corrosion and absolute ease of sanitation. The "L"-shaped rails, with a depth of 50 mm, ensure secure support for 530x370 mm format trays. Movement is made safe and smooth by the 4 swivel wheels of 125 mm, equipped with **rubber bumpers** and two parking brakes, ideal for locking the trolley during loading and unloading phases.
