

Tray trolley h110_165

Professional double stainless steel tray trolley for 14 GN 1/1 containers (74x55x95 cm). Robust double-track structure with top work surface, load capacity 168 kg and braking wheels.

The **professional double-track tray trolley** is the ideal solution for catering and food service businesses requiring high storage capacity in a compact and manageable structure. Made entirely of **stainless steel**, this trolley allows for organizing up to **14 GN 1/1 containers** in only 95 cm of height, utilizing a side-by-side configuration. This feature makes it not only an excellent transport system, but also a solid **mobile workstation**: the upper surface can be used as an additional support bench during preparation or plating phases. The reinforced wheels, two of which are equipped with brakes, ensure smooth movement and impeccable stability even when fully loaded, optimizing workflows in intensive kitchens.
