Tray trolley h215_226

Low stainless steel tray trolley (66x73x84 cm) for 8 GN 2/1 or GN 1/1 containers. Sturdy structure with top work surface, 180 kg load capacity and protective bumpers.

The **compact professional tray trolley** is a multifunctional mobile station designed to optimize storage and preparation in Ho.Re.Ca. environments. Made entirely of **stainless steel**, this model stands out for its reduced height (84.5 cm) which allows it to serve both as a transport system for 8 **GN 2/1 or GN 1/1** containers, and as a practical **additional work surface**. The structure is reinforced with "U"-shaped support brackets on both sides to ensure maximum stability of the containers during movement, while the black wall bumpers protect the kitchen furniture from accidental impacts. It is the ideal solution for those who need robustness in an agile and versatile format.

Technical characteristics

- **Material:** professional high-resistance stainless steel
- **Capacity:** 8 supports for GN 2/1 and GN 1/1 Gastronorm containers
- **Total dimensions:** W. 66.2 x D. 73.3 x h. 84.5 cm
- **Maximum load:** 180 kg (ideal for heavy loads)
- **Distance between supports:** 73 mm (optimal for ventilation and versatility)
- **Movement:** 4 swivel wheels, 2 of which are equipped with brakes
- **Safety:** black wall bumper (shockproof) on each corner
- **Weight:** 16 kg
