

Tray trolleys for self-service restaurants h09192

Professional single-column tray trolley with **10 trays** capacity. Steel structure with **white Perfex** side panels, ideal for organized and discreet clearing in canteens, fast-food outlets, and restaurants.

The **single-column tray trolley** is a compact and efficient logistical solution, designed to optimize table clearing management in high-turnover environments. Ideal for fast-food outlets, school canteens, hotels, and catering services, this model allows for tidy tray collection and transport, reducing visual clutter thanks to the side paneling.

The structure features side panels in **white Perfex**, a resistant and easy-to-clean technical plastic material that gives the trolley a clean and minimalist design. Internally, the trolley is organized with rails offering a capacity of **10 trays**, maintaining a **12 cm** spacing between levels. This distance is designed to accommodate trays complete with plates, glasses, and containers without obstruction, ensuring maximum practicality during clearing phases.
