

Tray with hotel room kettle h76_109

Professional courtesy set with 0.8 L anti-scald double-layer kettle and ABS tray with steel drip tray. Power 1200 W.

The professional kettle tray set represents the ideal solution for offering a refined and safe courtesy service in hotel rooms, B&Bs, and high-end accommodation facilities. Designed to optimize space and guarantee maximum hygiene, the system integrates a tray in **heat-resistant black ABS** with a stainless steel drip tray, essential for keeping the surface dry and tidy. This product solves operational criticalities related to maintenance and thermal safety, offering a premium experience for the guest and simplified management for the service staff.

The heart of the set is the **0.8-liter electric kettle with a double-layer structure**: the AISI 304 stainless steel interior ensures maximum food purity and corrosion resistance, while the matte black PP plastic outer coating acts as an anti-scald thermal barrier. Thanks to the **1200 W** power, the water reaches a boil quickly, ensuring operational efficiency even in contexts of intensive use. The 360° base integrated into the tray and the hidden heating element facilitate daily cleaning and repositioning operations.

Technical features

- **Overall dimensions:** W 24 x D 24 x H 22 cm
- **Kettle structure:** Double layer (AISI 304 stainless steel interior, anti-scald PP exterior)
- **Capacity:** 0.8 Liters
- **Tray material:** High thermal resistance black ABS
- **Drip tray:** Removable integrated stainless steel tray
- **Power:** 1200 W
- **Heating element:** Integrated and hidden for easy descaling
- **Safety:** Automatic shut-off at boiling and boil-dry protection
- **Base:** Cordless with 360° rotation integrated into the tray
- **Spout:** Shaped with anti-drip technology
- **Indicators:** Power button with luminous LED
- **Power supply:** 220–240 V / 50–60 Hz
- **Insulation class:** Class I
