

Tree grate for urban furniture h950_17

Powder-coated cast iron tree grate h950_17, ideal for protecting and enhancing urban green areas. Dimensions: W 150 x D 150 x h 5 cm. Weight: 144 kg.

The **h950_17 tree grate** is a robust and reliable solution for the protection of roots and the soil surrounding trees, especially in urban and high-traffic areas. Made entirely of **high-quality cast iron** and treated with a resistant **powder coating**, this grate offers **long-lasting protection** against atmospheric agents and daily wear and tear.

With dimensions of **W 150 x D 150 x h 5 cm** and a **weight of 144 kg**, the grate guarantees **excellent stability and resistance** even in areas of intense passage. The powder-coated finish not only protects against corrosion but also adds an elegant and well-integrated look to urban furniture, fitting perfectly into streets, squares, and public parks.

The design of the **h950_17 grate** is intended to allow for proper water and air circulation, promoting the well-being of the tree and the underlying soil. The **robust structure** prevents soil compaction and protects roots from mechanical damage, helping to preserve tree health and improve pedestrian safety.

Choose the **h950_17 tree grate** for functional and durable urban furniture. Protect your city's green areas with a high-quality product and elegant design. **Buy now** and help create safer and more orderly spaces!

Technical features:

- **Material:** cast iron
- **Shape:** square
- **Coating:** powder-coated
- **Dimensions:** W 150 x D 150 x h 5 cm
- **Weight:** 144 kg

User benefits:

- **Effective protection:** Protects tree roots from mechanical damage and soil compaction.
- **Resistance:** Made of cast iron, it guarantees long life and resistance to atmospheric agents.
- **Functional design:** Allows for proper water and air circulation for plant well-being.
- **Stability:** The weight and robust structure ensure excellent hold, even in high-traffic areas.
- **Ease of maintenance:** Powder coating that requires little maintenance and guarantees long-term protection.

FAQ:

1. Is the grate suitable for all weather conditions?

Yes, the powder coating offers excellent protection against atmospheric agents and corrosion.

2. **How does it contribute to plant well-being?**

The grate allows for proper air and water circulation, promoting the health of the tree and the surrounding soil.

3. **Is the grate impact-resistant?**

Yes, the cast iron structure is designed to resist impacts and mechanical stress.

4. **Is it suitable for high-traffic areas?**

Absolutely, the robustness of the grate makes it ideal for use in areas with a high volume of pedestrians and vehicles.

5. **Does it require special maintenance?**

No, the powder coating minimizes the need for routine maintenance.

Buying mini-guide:

When choosing a **tree grate** for urban furniture, it is important to consider high-quality materials and protective treatments. The **h950_17 grate** is made of **cast iron**, known for its excellent resistance and stability. The powder coating offers additional protection against weather and wear, ensuring a product that lasts over time without requiring frequent maintenance.

This grate is perfect for those looking for a functional and durable solution to protect trees in urban contexts, while improving the aesthetics of public areas. Be sure to choose a size appropriate for your installation needs to ensure maximum support and protection.
