

Trolley for 60 x 40 cm trays h21582

Professional stainless steel pastry trolley for 18 trays (60x40 cm). High-capacity vertical structure (52x66x173 cm), 150 kg load capacity and wheels with brakes.

The **professional 18-level tray trolley** is the indispensable tool for logistical organization in pastry shops, bakeries, hotels, and large kitchens. Made entirely of **stainless steel**, this model solves the problem of massive vertical storage, guaranteeing total corrosion resistance and impeccable hygiene compliant with HACCP regulations. The structure is calibrated to house standard **600 x 400 mm** trays, ensuring stability and safety even at full load. Thanks to the four multi-directional wheels, two of which are equipped with brakes, the trolley allows smooth movement between preparation areas, ovens, and cooling areas, optimizing the technical staff's operational times.

Technical characteristics

- **Material:** professional stainless steel (resistant and hygienic)
- **Capacity:** 18 levels for 600 x 400 mm trays
- **Distance between levels:** 75 mm for optimal air circulation
- **Maximum load capacity:** 150 kg (reinforced structure)
- **Total dimensions:** W. 520 x D. 660 x H. 1735 mm
- **Weight:** 23 kg
- **Handling:** 4 multi-directional wheels (2 with parking brake)
- **Wheel diameter:** 100 mm

** The trolley is delivered disassembled to preserve its integrity during transport and reduce logistics costs.*

INFORMATION

- **Length in millimetres** 520.000000
- **Depth in millimetres** 660.000000
- **Height in millimetres** 1735.000000
- **size pans** 60 x 40 cm
- **capacity** 18 Trays
