

Trolley for 60x40 trays h418_107

Double stainless steel bakery trolley for 30 EN 60x40 cm trays (90x63x165 cm). Double section structure, robust and hygienic.

The **professional double-section tray trolley** is the ideal solution for pastry laboratories, bakeries, and cooking centers managing high production volumes. Made entirely of **high-quality stainless steel**, this model allows for the simultaneous storage and transport of up to **30 Euronorm trays (60 x 40 cm)**, arranged in two side-by-side columns of 15 levels each. The double-bay structure guarantees exceptional stability and a balanced load distribution, facilitating movement even when fully loaded. Stainless steel ensures quick and total sanitization, meeting the strictest HACCP hygiene standards and resisting perfectly to the humidity of leavening cells or the heat of cooking areas.

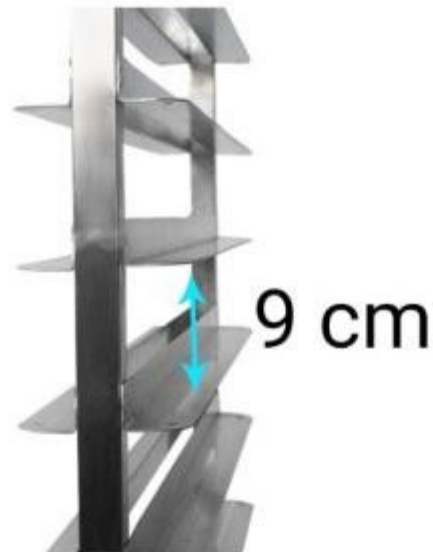

Technical characteristics
