

Trolley for GN 2/1 trays h09194

Professional stainless steel tray trolley for 14 GN 2/1 trays (45x66x182 cm). Vertical structure with multidirectional wheels and bumpers.

The **professional tray trolley** with vertical design is the ideal solution for space and logistics optimization within industrial kitchens, large hotels, and cooking centers. Made entirely of **stainless steel**, this tool guarantees impeccable resistance to corrosion and prolonged durability even in high-humidity environments. The structure is designed to accommodate up to **14 GN 2/1 trays**, offering massive storage capacity in an extremely small footprint. Thanks to the column configuration, it solves the operational problem of managing large volumes of gastronomic preparations, while ensuring full compliance with **HACCP hygiene and health regulations**.

Technical specifications

- **Material:** high quality stainless steel
- **Capacity:** set up for 14 GN 2/1 format trays
- **Distance between shelves:** 8 cm for optimal air circulation
- **Movement:** 4 multidirectional wheels for agile movement
- **Protection:** rubber bumpers on each wheel
- **Total dimensions:** W. 45 x D. 66 x H. 182 cm
- **Stability:** reinforced structure for heavy loads
