

Trolley for sterile containers with 2 shelves h410_34

Trolley for sterile baskets with 2 shelves and AISI304 stainless steel bottom: Dimensions: W.1230 x D.710 x H.1500 h mm .

The trolley for sterile containers is suitable for transporting sterile material and linen intended for hospitals, clinics and laboratories. **Thanks to the robust structure and high-quality materials, the trolley is extremely resistant and suitable for daily use.**

The product consists of a body made entirely of AlMg3 anodized light alloy sheet (10 microns) and is entirely formed by 2 removable internal shelves and an AISI304 stainless steel sheet bottom. The closing door has **2 leaves** with 270° opening and is equipped with stop magnets in the open position, fitted with a continuous hinge.

The maintenance of a sterile environment is guaranteed by a rubber gasket on the 4 sides of the opening and by the central junction.

The push handle on the side and the swivel wheels, 2 fixed and 2 swivel, guarantee extreme ease during transport operations.

Technical features:

- Body material: anodized AlMg3 alloy
- 2 removable AISI304 stainless steel shelves
- Double-leaf closing door
- Door closure via vertical bolt with top and bottom hooking
- Rubber gasket on the 4 sides of the opening
- Anti-corrosion base frame
- 2 fixed wheels and 2 swivel wheels
- Capacity per shelf: 80 kg
- Bottom capacity: 120 kg
- Maximum capacity: 9 sterilization units 300 x 600 x 300 h mm
- Load capacity: 280 kg
- Internal dimensions: 1130 x 620 x 1220 h mm
- External dimensions: 1230 x 710 x 1500 h mm
- Wheel diameter: 160 mm
- Weight: 77 kg
