

## Trolley for transporting dishes h09185

Stainless steel dish trolley with swivel wheels, capacity 200 plates, dimensions L91x57xH101cm. For restaurants, hotels and catering.

The **dish trolley** is an essential tool for the efficient management of catering services. Designed for the transport, distribution and collection of plates in collective environments such as restaurants, hotel dining rooms, canteens and catering services, it allows for the optimization of service times and the reduction of staff movement.

The robust structure in **stainless steel tubing** guarantees corrosion resistance and durability over time, while the shelf and the steel sheet paneling offer surfaces suitable for distributed loads. Agile movement is ensured by **swivel wheels** that allow maneuvers in tight spaces and changes of direction without lifting.

With a **capacity of approximately 200 plates**, the trolley represents an optimal compromise between load capacity and practicality of movement, reducing the number of trips required during service.

## Technical features

- **Material:** Stainless steel
- **Capacity:** Approximately 200 plates
- **Movement system:** Swivel wheels
- **External dimensions:** L91 x D57 x H101 cm
