

Trolley for tray transport h712_51

Short Description Compact tray trolley in chrome-plated steel for 6 GN 1/1 containers or 12 GN 1/1 trays (55x38x96 cm). With safety bracket, Ø 12 cm wheels and shock protection.

The **professional GN 1/1 tray trolley** is an agile and versatile solution for the transport and storage of containers and trays in restaurants, bistros, and catering services. Made with a solid **chrome-plated steel structure**, this model is designed to ensure maximum functionality in limited spaces. Its distinctive feature is the **integrated safety bracket**, which acts as a mechanical lock to prevent accidental sliding of the trays during movement. With a height of 96 cm, it is perfectly suited as an under-counter support unit or as a mobile service station, facilitating the passage from the cooking area to distribution in total safety.
