

Trolley with 56 storage bins h972_07

Mobile steel shelving with 56 polypropylene bins, perfect for organizing small parts and work materials. Dimensions: W 64 × D 54 × H 117 cm.

The **trolley with 56 storage bins H972_07** is an ideal solution for **workshops, warehouses, laboratories, and industrial environments**, allowing for efficient and practical organization of small parts, tools, and materials.

The **steel structure** guarantees **stability and resistance**, while the **polypropylene bins** ensure **lightness, durability, and ease of cleaning**. The **double-sided design** allows for immediate access to the contents from both sides, optimizing the workspace.

The trolley is equipped with **56 bins divided into two formats: 24 bins of 1 liter** for small components and **32 bins of 4 liters** for more voluminous small parts.

Each bin is equipped with **label holders**, facilitating the identification of materials and improving operational efficiency. The **swivel wheels** allow for **smooth and safe movement**, making it easy to **transport tools and small parts** to different work environments.

Optimize your workspace with the **small parts trolley H972_07!** Practical, resistant, and easy to move. **Buy now or request a personalized quote.**

Technical characteristics:

- **Structure:** Robust steel
- **Bins:** Polypropylene with label holders
- **Number of bins:** 24 of 1 liter + 32 of 4 liters
- **Design:** Double-sided for maximum accessibility
- **Wheels:** Swivel for easy movement
- **Color:** Black/Red
- **Dimensions:** W 64 × D 54 × H 117 cm
- **Weight:** 32 kg

User benefits:

- **Maximum organization:** Perfect for dividing small parts, screws, bolts, and tools.
- **Resistant structure:** Solid steel for long-lasting durability.
- **Easy identification:** Bins with label holders for quick consultation.
- **Optimal mobility:** Swivel wheels for easy transport.
- **Double-sided design:** Access to materials from both sides.

FAQ:

1. **Is the trolley suitable for industrial environments?**

Yes, it is ideal for workshops, laboratories, warehouses, and companies.

2. **Can I label the bins?**

Yes, each bin is equipped with a label holder for easy identification.

3. **Are the wheels lockable?**

No, but the swivel wheels guarantee excellent maneuverability.

4. **How much weight can the structure support?**

The structure is designed to support the weight of tools and small parts safely.

Mini buying guide:

If you need a **robust and versatile trolley to better organize small parts and work tools**, the **H972_07** is the perfect solution. Thanks to the **steel structure with 56 polypropylene bins**, it offers **excellent storage capacity** without taking up too much space.

The **swivel wheels** allow for easy movement, while the **label holders** guarantee **excellent organization** of materials. Perfect for **workshops, warehouses, and industrial environments** that need a **practical and mobile storage system**.
