

Twin pediatric crib h934_04

Neonatal crib with twin bed in PET and steel. Dimensions: W. 90 x D. 70 x h. 110 cm.

The **twin crib for newborns**, designed for hospital use, offers an ideal solution for families with **two small patients**. This versatile cot can be easily rotated over the mother's bed, facilitating interaction and simultaneous care of the twins. The **tilt adjustment** is guaranteed by a **gas compression spring**, allowing the position to be adapted for maximum comfort of the infants. The **castors**, equipped with **locking brakes**, ensure safe and smooth mobility, allowing healthcare personnel to move the crib with ease. In addition, the **double foam mattress** is covered with a **washable and water-resistant material**, offering practicality and hygiene. This crib represents an important innovation in supporting families and medical staff, combining functionality, safety and comfort in a single product.
