

Two-compartment waste recycling station h1025_36

2-compartment waste recycling station 200 lt with swing lids and bag holder. Dimensions: W 76.2 x D 38.3 x H 82.5 cm.

The **H1025_36 indoor waste recycling station** is designed for high-traffic environments such as **company canteens, break areas, schools, hospitals, shopping centers** or **Horeca** contexts, where a practical and hygienic system for waste management is essential.

This model is equipped with **two separate compartments** with a **swing lid**, which allows for quick waste disposal without having to touch the structure. Each compartment is equipped with an **internal bag holder**, which allows for **easy emptying from the top**, reducing maintenance time and improving hygienic conditions.

Made of resistant and easily sanitizable materials, the station has a **total capacity of 200 liters**, perfect for public spaces and high-traffic common areas. The structure is robust yet aesthetically pleasing, available in **various colors** to adapt to the most diverse environments.

Included with the product is a **kit of 5 magnetic pictograms**, easily applicable and removable, to indicate the type of waste intended for each compartment. This system significantly improves **clarity in waste separation**, encouraging correct behavior by users.

Thanks to its **functionality, high capacity** and **customizable signage**, the H1025_36 station represents a professional, hygienic and effective solution for indoor waste management in public or professional environments.

Choose the **H1025_36 recycling station** for a tidier and more efficient environment. Contact us for a personalized quote on multiple supplies!

FAQ:

1. **What are its dimensions?**

Its dimensions are W 76.2 x D 38.3 x H 82.5 cm.

2. **Is it suitable for outdoor environments?**

No, it is designed exclusively for indoor use.

3. **How many liters does each compartment have?**

The total capacity is 200 liters, divided equally between the two compartments.

4. **Are the pictograms removable?**

Yes, they are magnetic, so they are easily applicable, removable and replaceable.

5. **Are custom colors available?**

Yes, the product is available in various colors.

Mini buying guide:

When you need to choose an **indoor waste recycling station**, consider the **amount of waste generated** and the **frequency of emptying**.

This 200-liter model is perfect for **high-traffic** environments, where it is necessary to contain large volumes and facilitate maintenance.

The **swing lid** system ensures practicality and hygiene, while the **internal bag holders** allow for simple and quick emptying.

The presence of **magnetic pictograms** is essential to ensure effective and orderly collection.

Finally, consider the possibility of **coordinating the colors** of the station with the style of the environment for a professional and harmonious result.

Two-compartment recycling station, 200-liter recycling bin, indoor bin with swing lid, waste container with magnetic pictograms, professional recycling bin, recycling station for public environments.
