

Two folding mats for nursery h999_36

Set of two folding mats for nursery h999_36 (200x200x5 cm) in LD 30 foam and blue PVC. Space-saving safe solution for psychomotricity.

The set consisting of **two folding nursery mats h999_36** is a professional anti-trauma solution designed for psychomotricity and children's gymnastics. Aimed at schools, nurseries and sports centers, this support concretely solves the problem of space management within small gyms or multi-purpose facilities, where different activities alternate in the same area. Folding mats create a safe and comfortable environment, allowing children to walk, jump and play in total protection during the motor skill development phases. Made with a 5 cm thick LD 30 foam core and covered in durable blue PVC, they ensure excellent impact absorption combined with maximum logistical and storage convenience thanks to their foldable format.
