

Two-level bicycle rack with wheel support h28020

2-level bike rack, available with 3, 5, or 9 spaces. Suitable for wheels from 35 to 55 mm. Galvanized steel structure. Min dimensions mm 660x400x400h

The **two-level bicycle rack** is the ideal equipment for installation near apartment buildings, schools, gyms, and offices. In fact, the two-level structure allows for the parking of a high number of bikes in a small space.

The structure, with its **simple design and curved lines**, is made of galvanized steel with a silver finish.

To ensure proper stability of the product even when fully loaded, it is recommended to anchor the structure to the ground using expansion bolts. To simplify anchoring operations, this product is equipped with a specific **perforated plate** for inserting screws.

The bicycle rack is available in 3, 5, and 9-space versions.

Technical features:

- Dimensions (W. based on number of spaces): mm 660- 1200- 2300 x 400 x 400 (W x D x h)
