

## Two-panel medical practice screen h13\_66

Hospital screen with 2 sections featuring an oval tube frame and light blue Trevira curtains. Adjustable feet, height 180 cm, Class I medical device.

The medical practice screen is a patient separation solution designed to ensure maximum privacy in healthcare environments. The simple and functional structure adapts to any clinical context, maintaining a discreet and professional aesthetic. The adjustable feet ensure stability on uneven floors, an essential element in wards and outpatient clinics where safety is a priority.
