

Two-seater polypropylene copolymer bench h15922

2-seater waiting bench in polypropylene copolymer with steel beam. Made in Italy design ideal for medical practices and professional areas.

The **two-seater waiting room bench** is the ideal solution for optimizing reception management in professional and healthcare contexts. Designed to solve the operational problem of seating in high-traffic spaces, such as **medical practices, clinics and offices**, this bench offers an orderly and easy-to-maintain station. The shells are made of **polypropylene copolymer**, a high-resistance plastic material that guarantees longevity even under daily stress. Entirely **Made in Italy**, the product meets the needs of a professional target looking for essential, robust and easy-to-sanitize furniture.
