

Two-seater fire-retardant polypropylene bench h15901

Two-seater fire-retardant polypropylene bench for waiting rooms. Steel structure and ergonomic seats. Made in Italy. Dimensions: 103x59xH80 cm.

The **two-seater fire-retardant polypropylene bench** represents a professional furnishing solution designed to optimize the management of waiting areas in high-traffic contexts. Thanks to the **copolymer polypropylene** shell, the product guarantees high mechanical resistance and prolonged durability, effectively meeting the need for robust furniture for public spaces. The structure, characterized by a black painted beam, ensures stability and ergonomic support, solving the problem of orderly seating arrangement in environments such as **medical offices, hospitals, offices, and banks**. Compliance with fire safety regulations makes it suitable for placement in premises subject to strict safety controls.

Technical features

- Patented model
- Capacity: 2 seats
- High-resistance copolymer polypropylene shell
- Class 1 certified fire-retardant properties
- Black painted support beam with 40x80 cm profile
- Total width: 103 cm
- Depth: 59 cm
- Total height: 80 cm
- Production: Made in Italy
