

## Two-seater swing with one flat seat and one cradle seat h17203

Double swing h17203 in Nordic pine wood with mixed seats (cage and flat), ideal for parks and collective play areas. Dimensions 350x300 cm.

The two-seater swing **h17203** is a robust and professional solution designed for the equipment of play areas in public and private contexts. The structure is made entirely of **Nordic pine wood**, selected for its natural ability to withstand mechanical stress and climatic variations. The four square-section posts are arranged in an oblique configuration and crossed at the top, ensuring superior structural stability during intensive use.

The safety and longevity of the product are ensured by the use of **galvanized steel bolts and brackets**, which protect the joint points from oxidation. The standard configuration provides a differentiated equipment of the seats, making the equipment versatile for different age groups thanks to the presence of one cage seat and one flat seat.
