

Two-seater wooden changing table h681_04

Two-seater wooden changing table with lower shelf and 4 swivel wheels. Dimensions W140 x D74 x H86 cm. Ideal for nurseries and playrooms.

The changing table is a practical and functional solution for childcare facilities such as nurseries and playrooms. Designed to ensure ease of use and durability, it combines quality materials with an ergonomic configuration that allows for comfortable and efficient changing and hygiene operations.

The structure is made of **wooden conglomerate panels** with **rounded ABS edges**, a combination that ensures robustness and safety during daily use in high-traffic environments. The base is equipped with **4 swivel wheels** that allow the changing table to be moved easily from one area of the facility to another, adapting to the organizational needs of the day.

An integrated **lower shelf** in the design offers a practical space for storing and holding essential accessories such as towels, diapers, and wipes, maintaining order and reducing the time needed to reach materials during the operation.
