

Two-tier outdoor fountain h763_33

Double-height fountain in black oxiron steel with stainless steel basins. Inclusive design for children and the disabled. Dimensions: W 69.8 x D 30 x H 107 cm. Weight: 21 kg.

The **two-tier outdoor fountain** is a solution designed to ensure convenient, safe, and inclusive access to drinking water in public spaces. This urban furniture element solves the problem of accessibility thanks to the **double-height** configuration, which allows easy use by both children and people in wheelchairs. Made of **steel with a black oxiron finish** and equipped with stainless steel basins, the fountain ensures high resistance to intensive use and atmospheric agents, representing a durable choice for parks, squares, and recreational areas.
