## Umbrella bagging machine for businesses h957\_24

Wet umbrella dispenser, capacity 500 bags of 70 x 13 cm. Dimensions: W 35 x D 25 x H 74 cm. Weight: 7.2 kg.

The **h957\_24 umbrella bagging machine for businesses** is a functional device designed to ensure the safety and hygiene of entrances during bad weather days. Featuring a robust body in **cold-rolled white sheet metal** and **polycarbonate** components, this structure is tested to withstand abrasions and impacts in high-traffic environments. The system solves the operational problem of slippery floors and persistent humidity, allowing umbrellas of different sizes to be bagged in seconds. Thanks to its **compact design** and professional gray finish with blue details, it integrates harmoniously into any commercial context, from hotels to offices, offering efficient management without the need for electrical connections.
