

Umbrella stand with ring for common areas h957_32

Professional umbrella stand in DC01 sheet metal and ABS, Ø32xH70cm. Equipped with stabilizer ring and water collection tray for common areas and offices.

The **H957_32 umbrella stand** is a technical furnishing accessory designed for the organization and management of flows in professional environments and high-traffic common areas. It effectively solves the problem of wet floors and clutter in office entrances, hotels and restaurants, ensuring a vertical posture of the umbrellas thanks to the integrated upper support.

Technical characteristics

- **Structure material:** Cold-rolled quality DC01 steel sheet (EN10130 standard).
- **Support tube:** Pickled iron with 40 mm diameter and 1.5 mm thickness for superior stability.
- **Umbrella holder ring:** Made of ultra-resistant black ABS, diameter 27 cm.
- **Liquid collection system:** Internal polypropylene tray, removable for emptying and cleaning operations.
- **Base protection:** Polyethylene finishes to preserve delicate floor surfaces.
- **Coating:** Electrostatic with fire-retardant polyester resin, thickness 60 microns.
- **Fire-retardant certifications:** European classification A2-s1, d0 (UNE EN 13501 standard) and class M1 (UNE 23727 standard).
- **Dimensions and weight:** Ø 32 x H 70 cm; total weight 5.2 kg.
- **Resistance:** Polymerization treatment at 200° for 20 minutes for maximum resistance to impact and abrasion.
