

Universal tray trolley h099911

Professional **stainless steel** tray trolley with a capacity of **10 universal trays**. Robust single-column structure, equipped with professional 125 mm wheels and bumpers, ideal for canteens, fast-food outlets, and self-service restaurants.

The **stainless steel tray trolley** is a versatile and robust logistics solution, specifically designed to optimize service in collective catering contexts such as canteens, catering, and fast-food outlets. Thanks to the use of **universal sizes**, this model fits perfectly with most trays on the market, facilitating clearing and distribution operations.

The structure is made of stainless steel to ensure maximum hygiene and structural resistance, while the **chromed steel wire runners** allow for smooth and rapid tray insertion. The **12.5 cm** distance between levels is designed to comfortably accommodate trays complete with plates and cutlery, avoiding accidental contact. Maneuverability is excellent thanks to the 125 mm multi-directional wheels, protected by **circular rubber bumpers** to safeguard room furnishings during movement.
