

Universal Tray Trolley h2200159

Professional double-column tray trolley in **stainless steel** with a capacity for **20 universal trays**. Thanks to the chrome wire guides, it can accommodate trays of various shapes and sizes (up to 53x39 cm). Robust, versatile, and easy to maneuver.

The **double-column universal tray trolley** is the most flexible solution for service management in canteens, fast-food outlets, and large catering centers. Unlike standard models, this trolley is designed to accommodate trays of **different shapes and sizes**, up to a maximum of 53x39 cm, making it ideal for facilities using non-uniform tray sets.

The structure guarantees solidity: made of **square stainless steel tubing** (2x2 cm section) with bolted crossbars, it ensures impeccable structural stability even when fully loaded. The **chrome steel wire guides** allow for smooth insertion and reduce dirt accumulation, facilitating cleaning. Maneuverability is guaranteed by four 12.5 cm swivel wheels and gray rubber corner bumpers, essential for protecting walls and furniture during fast transport between the dining room and kitchen.
