

Up-and-down blackboard system W500 x H100 cm h219_38

Up-and-down school blackboard. Wall mounting. Dimensions: W500 x H100 cm.

Up-and-down blackboard system, ideal for furnishing school and university classrooms. The structure consists of an **anodized aluminum frame** that serves as a support for **2 porcelain steel blackboards**. The 2 blackboards are connected to each other via a sprocket chain, which allows for the dependent movement of the 2 blackboards (when one rises, the other falls). The surfaces are suitable for **writing with white and colored chalks**. To complete the structure, there is a convenient storage shelf.

Technical features:

- Type: up-and-down
- Dimensions: W500 x H100 cm
- Color: slate gray or green
- Material: porcelain steel
- Anodized aluminum frame
- Chalk shelf
- Surface suitable for writing with chalks

On request and subject to a quote, it is possible to provide special formats and setups.
