

Urban anti-vandalism ashtray in concrete and stainless steel h86_259

Urban anti-vandalism ashtray in concrete and stainless steel, durable and maintenance-free. Dimensions: W.42 x D.42 x h. 80 cm.

The **urban anti-vandalism ashtray** has been designed to withstand difficult conditions in public environments such as **parks, squares and rest areas**, combining robustness and a modern aesthetic. The concrete structure guarantees stability and resistance to wear, while the upper stainless steel element, equipped with a wide handle, simplifies cleaning and makes maintenance practically non-existent. This model, characterized by its **self-stabilizing capacity**, does not require fixing to the ground, allowing flexibility and safety in every type of installation. It is also designed to resist acts of vandalism and aggressive atmospheric agents, ensuring a long duration over time.

The essential aesthetics and high-quality materials make this **ashtray** a perfect solution for those looking for a durable product suitable for modern urban furniture. Thanks to the compact but robust design, it can be installed without the need for permanent anchoring, proving to be the ideal choice for public bodies, shopping centers, recreational areas and any outdoor context with high flows of people.

Guarantee your public spaces a solution of quality and style. Request a quote for quantities!

Technical characteristics:

- **Main material:** Resistant concrete
- **Ashtray material:** Stainless steel with handle to facilitate cleaning
- **Dimensions:** W. 42 x D. 42 x h. 80 cm
- **Resistance:** Designed to resist acts of vandalism and the most severe atmospheric conditions
- **Stability:** Self-stabilizing, does not require fixing to the ground

User benefits:

- **Robustness and stability:** The self-stabilizing concrete structure resists impacts and vandalism.
- **Easy maintenance:** The stainless steel of the ashtray is corrosion resistant and easy to clean thanks to the handle.
- **Durability without anchoring:** Does not require permanent installation, making positioning flexible.

- **Safety and practicality:** The handle allows for safe and fast cleaning.

FAQ

- **Is it necessary to fix it to the ground?**
No, thanks to its weight and self-stabilizing capacity, it does not require anchoring, making it ideal for public spaces.
- **How is it cleaned?**
The stainless steel ashtray is equipped with a handle to facilitate removal and cleaning in a simple and safe way.
- **Does it resist rust and atmospheric agents?**
Yes, thanks to the combination of concrete and stainless steel, it is designed to resist corrosion and atmospheric elements, maintaining aesthetics and functionality over time.
- **Is the ashtray suitable for high-traffic areas?**
Absolutely, it is designed to withstand heavy use and acts of vandalism, making it ideal for busy public spaces.

Mini buying guide

When choosing an **ashtray for urban environments**, it is important to consider durable materials such as concrete and stainless steel, ideal for resisting bad weather and wear. If intended for public areas, opt for a self-stabilizing model, like this one, which does not require permanent fixings. The aggregate finish offers a pleasant aesthetic, perfect for integrating with other urban furniture elements. Furthermore, ensure that the ashtray is equipped with a handle to facilitate maintenance, like this model.
