

Urban bench with backrest in galvanized steel h109_359

Urban furniture bench in galvanized and painted steel, with backrest. Dimensions: L. 1615 x D. 570 x h. 848 mm. Weight: 65 kg. Available in various colors.

The **urban furniture bench with backrest h109_359** is designed to ensure comfort and durability in any public context, such as parks, squares, or pedestrian areas. The structure is made entirely of **galvanized and painted steel**, ensuring high resistance to atmospheric agents and corrosion, ideal for outdoor use.

The **two side frames** of the bench, made of laser-shaped steel, are connected to two oval-section tubes of **60x30 mm**, which provide solidity and stability, suitably shaped, with a support function and an oval-shaped base plate 360x100 mm. The **seat and the backrest** are composed of **32 drawn steel bars** with a diameter of 8 mm and 2 tubes Ø 30 mm, fixed to 2 side supports and 2 shaped central supports, to offer maximum support and comfort. The **base** of the bench is prepared for **ground fixing using expansion bolts (not included in the supply)**.

All metal elements are subjected to a treatment of **galvanization and thermosetting polyester powder coating**, available in **various RAL colors**, for perfect integration with the surrounding environment.

The **stainless steel screws** ensure further robustness and reliability, making this bench an excellent choice for any urban space.

Choose the **urban furniture bench h109_359** to enhance your public spaces with a robust and long-lasting product. **Buy it now or request a personalized quote for multiple quantities!**

Technical features:

- **Dimensions:** L. 1615 x D. 570 x h. 848 mm
- **Seat height:** 485 mm
- **Weight:** approx. 65 kg
- **With backrest**
- **Structure material:** galvanized and painted steel
- **Shoulders:** composed of laser-shaped steel flanges
- **Support tubes:** oval section 60x30 mm, shaped
- **Base plates:** oval shape 360x100 mm
- **Seat and backrest:** 32 drawn steel bars Ø8 mm, 2 tubes Ø30 mm fixed to two lateral and two shaped central supports
- **Fixing:** prepared for ground fixing via expansion bolts (not included in the supply)
- **Screws:** stainless steel
- **Finish:** galvanization and thermosetting polyester powder coating
- **Colors:** available in various RAL shades

User benefits:

- **Weather resistance:** galvanization and painting treatment ensures durability over time.
- **Comfort and safety:** ergonomic backrest and stable structure.
- **Customization:** available in different RAL colors for aesthetic integration with the environment.
- **Reduced maintenance:** high-quality materials designed to last over time.
- **Stable installation:** preparation for ground fixing with expansion bolts (not included in the supply).

FAQ:

1. **Is it suitable for use in public areas?**

Yes, the bench is designed for urban contexts such as parks, squares, and pedestrian areas.

2. **How is it fixed to the ground?**

The base is prepared for fixing using expansion bolts (not included).

3. **What materials are used?**

The bench is made of galvanized and painted steel with stainless steel screws.

4. **Does it require much maintenance?**

No, thanks to the materials treated against corrosion and wear, it is simple to maintain.

5. **Which colors are available?**

It is possible to choose from various RAL shades to adapt it to the urban context.

Mini buying guide:

Buying an **urban furniture bench** like model **h109_359** requires attention to fundamental specifications to ensure a durable and functional choice. First, evaluate the **materials**: this bench is made of **galvanized and painted steel**, treated to resist corrosion and atmospheric agents, ideal for intensive outdoor use. The design, featuring an **ergonomic backrest** and a stable seat, ensures maximum comfort for users, making it perfect for parks, squares, and public spaces.

A further aspect to consider is **stability**: the preparation for floor fixing using bolts (not included in the supply) ensures safety and resistance to vandalism or unauthorized movement. Furthermore, thanks to the possibility of choosing between different **RAL colors**, this bench easily adapts to different aesthetic contexts, integrating harmoniously with the surrounding furniture.

Finally, consider **maintenance**: the h109_359 bench is designed to require minimal intervention, thanks to its smooth surface and treated materials that facilitate cleaning. Ideal for those looking for a **robust and functional** solution for urban furniture, with high resistance to weather and wear over time.
