

Urban furniture bench with pine wood slats h10901

Urban furniture bench with Nordic pine wood slats and cast iron structure. Length: 2000 mm. Italian product.

Bench consisting of two sturdy shoulders in spheroidal **cast iron** casting, sandblasted and painted with thermosetting polyester powders. The side shoulders are equipped with housing for 10 **wood slats** in Nordic pine, section 55x45mm, pressure-treated in accordance with **DIN 68800-3 standards** to preserve the wood against attacks by fungi, mold, and atmospheric agents, and connected to each other by 3 sturdy steel tie rods Ø 20 fixed with M8 screws.

The bench is prepared for ground fixing with expansion **bolts**. Very solid, they require **little maintenance**. The hardware provided is made of stainless steel.
