

Urban concrete ashtray sandstone effect h86_258

Urban concrete ashtray with an elegant and resistant appearance. Designed for public environments and open spaces. Dimensions: W. 46 x D. 31 x h. 69 cm.

This **urban ashtray in concrete**, finely finished with a white sandstone effect, represents a durable and refined solution for **street furniture and public spaces**. Thanks to its robust and self-stabilizing structure, it offers maximum security against vandalism and extreme weather conditions, making it ideal for squares, parks, public office entrances, and transit areas.

The **modern** and **discreet** design integrates harmoniously into urban and architectural contexts, enhancing the aesthetics of the surrounding environment. With its integrated technology for natural water drainage, the ashtray remains functional even after heavy rain, eliminating the need for continuous maintenance and ensuring constant cleanliness and long-lasting efficiency.

Renew the furniture of your public spaces with a resistant and designer ashtray! **Add it now** to the cart and choose the quality that lasts over time.

Technical features:

- **Material:** high-resistance concrete, with a refined white sandstone effect finish
- **Drainage function:** special hole for natural drainage of rainwater
- **Stabilization:** self-stabilizing, requires no ground fixing
- **Maintenance:** no maintenance required, ideal for high-traffic public spaces
- **Dimensions:** W. 46 x D. 31 x h. 69 cm

User benefits:

- **Maximum resistance** against atmospheric agents, vandalism, and daily wear
- Requires **little maintenance**, reducing long-term management costs
- **Elegant and functional design**, ideal for any urban environment
- Guarantees cleanliness and order thanks to the **drainage** of rainwater

FAQ:

- **Is it suitable for high-traffic public areas?**
Yes, the anti-vandalism and weather-resistant structure makes it ideal for high-traffic public spaces such as parks, squares, and shopping centers.
- **Does it need to be fixed to the ground to remain stable?**
No, the ashtray is self-stabilizing and does not require fixing. The robust structure and the weight of the concrete guarantee stability even in case of strong winds or accidental impacts.

Buying guide:

To choose the ideal **urban ashtray**, it is important to consider factors such as resistance to atmospheric agents, stability, and ease of maintenance. This model perfectly meets these criteria thanks to its robust and self-stabilizing structure, the elegant sandstone finish, and the ability to drain water naturally, keeping spaces always tidy and functional.
