

Urban delimitation bollard h140_512

Urban bollard in galvanized steel H100 cm with 37 decorative rods. Removable with socket, gunmetal finish for pedestrian areas and parking lots.

The **H140_512 urban delimitation bollard** represents an advanced technical solution for the protection and management of public spaces. Designed to combine mechanical resistance and aesthetics, this device effectively solves the need to restrict vehicle traffic in sensitive areas such as pedestrian zones, squares, and sidewalks. The structure is made of **galvanized steel round tube** with a diameter of 89 mm and a thickness of 2 mm, ensuring a solid and durable barrier against impacts and environmental wear.

The design stands out for the presence of **37 decorative rods** in 8 mm solid round galvanized steel, stabilized by three galvanized sheet metal bands and completed by a decorative flange at the base. The **removability system with socket** integrated allows the element to be removed with ease, making it ideal for gateways that require occasional access for emergency, maintenance, or service vehicles. Surface protection is provided by a cycle of anti-corrosion treatments including washing, sandblasting, and painting with thermoplastic powders polymerized at 180°C.

Technical characteristics

- **Material:** Galvanized steel (tube Ø 89 mm, thickness 2 mm)
- **Height:** 100 cm
- **Base/overall dimensions:** 18 x 18 cm
- **Weight:** 20 kg
- **Decorative elements:** 37 solid round rods (Ø 8 mm) and 3 galvanized sheet metal bands
- **Finish:** Gunmetal
- **Removability system:** Socket for quick removal
- **Surface treatment:** Sandblasting, anti-corrosive primer, and polymerization at 180°C
- **Fixing:** Installation via cementing
- **Certifications:** ISO 9001:2015 (Quality), UNI EN ISO 3834-3:2021 (Welding)
- **Included in the kit:** Steel screws and assembly instructions

INFORMATION

- **Material** acciaio
- **reflective band** no
- **Diameter** 180.000000
- **fixing** da inghisare
- **Typology** Senza anelli
- **Height in millimetres** 1000.000000
