

Urban furniture pedestrian barrier h867_05

40x40 mm steel pedestrian barrier with internal reinforcement. Dimensions 500x900 mm, high-resistance anthracite powder coating for urban furniture.

This **pedestrian barrier** is designed for the safety and delimitation of pedestrian paths in urban and residential contexts. The load-bearing structure, made of 40 mm **steel tube**, is integrated with an internal flat profile lining with an 8 mm thickness that increases its structural rigidity. The **powder coating** treatment ensures long-lasting protection against corrosion and prolonged exposure to UV rays and weathering.

Technical specifications

- **Material:** structural steel
- **Main tube section:** 40 x 40 x 2 mm
- **Internal reinforcement:** 8 mm thick steel flat profile
- **Treatment:** polyester powder coating for outdoor use
- **Color:** anthracite
- **Dimensions:** 500 x 40 x H. 900 mm
- **Weight:** 9 kg
