

Urban furniture barrier h867_06

Painted steel pedestrian barrier 1000x900mm. Round tube structure with flat internal reinforcement, ideal for urban furniture and public areas.

Designed for the safe delimitation of pedestrian areas, sidewalks and collective spaces, this **steel pedestrian barrier** represents a robust and durable solution for urban furniture. The structure combines the stability of a tubular frame with an internal flat profile reinforcement, ensuring effective protection and orderly channeling of pedestrian flows in high-traffic contexts.

Technical features

- **Material:** High-quality steel
- **Supporting structure:** Steel round tube 40 x 40 x 2 mm
- **Internal reinforcement:** Steel flat profile with 8 mm thickness
- **Surface treatment:** Outdoor powder coating
- **Color:** Anthracite
- **Total dimensions:** 1000 x 40 x H. 900 mm
- **Operating weight:** 12 kg
