

Urban furniture bench h140_517

Urban bench with a sinuous and modern design, with a galvanized steel structure and okumè wood seat. Equipped with an integrated USB port, it is ideal for public spaces, waiting areas, and urban contexts. Dimensions: L 140 x D 140 x H 42 cm.

This **urban furniture bench H140_517** stands out for its **soft and fluid shapes**, which create a perfect harmony between aesthetics and functionality. Thanks to its **contemporary and welcoming design**, it adapts to any type of public space, from modern to more historic urban contexts, making it a versatile solution for squares, parks, pedestrian areas, and gathering places.

The **perimeter structure** is made of **laser-cut galvanized sheet metal (2 mm thickness)**, ensuring **high resistance to atmospheric agents and corrosion**. Inside, a **stiffening frame** in galvanized sheet metal profiles ensures greater stability and durability over time. At the base, the **adjustable feet** allow the bench to be adapted even to irregular surfaces, facilitating its installation.

The **seat** consists of **okumè wood slats (40x20 mm section)**, fixed on special shaped frames to ensure comfort and resistance over time. The wood used is treated to resist external agents, ensuring excellent durability even in exposed environments.

A distinctive element of this bench is the **integrated USB port**, positioned laterally and protected by a closing flap. This feature makes it perfect for modern rest areas, allowing users to **recharge their mobile devices** while they relax. The electrical system is housed in a technical compartment inside the structure, ensuring safety and protection.

Thanks to **anti-corrosion treatments**, including **hot-dip galvanizing, powder coating, and sandblasting**, the bench is designed to **resist corrosion and maintain its aesthetics intact over time**.

The **urban furniture bench H140_517** is a perfect complement to improve the livability of public spaces with a touch of design and innovation. Contact us now for a personalized quote!

Technical features:

- **Structure:** 2 mm galvanized sheet metal, laser cut
- **Fixing:** prepared for anchor bolts and expansion plugs
- **Seat:** 40x20 mm okumè wood slats
- **Adjustable feet:** for a stable installation
- **Integrated USB port:** with protection flap
- **Structure finish:** painted in various colors
- **Anti-corrosion treatments:** hot-dip galvanizing, sandblasting, powder coating
- **Weight:** 67 kg
- **Certifications:** ISO 9001:2015, UNI EN ISO 3834-3:2021
- **Dimensions:** L 140 x D 140 x H 42 cm

User benefits:

- **Modern and functional design:** suitable for any urban context.
- **Solid and durable structure:** with corrosion-resistant materials.
- **Comfortable bench:** with natural okumè wood seat.

- **Integrated USB port:** to recharge mobile devices in public spaces.
- **Easy installation:** thanks to adjustable feet and ground fixing.

FAQ:

1. Where can this bench be installed?

It is ideal for squares, parks, pedestrian areas, bus stops, and modern public spaces.

2. Is the seat wood treated to resist atmospheric agents?

Yes, the okumè wood slats are treated to ensure resistance and durability outdoors.

3. How is it fixed to the ground?

The bench is designed to be fixed with anchor bolts and expansion plugs, ensuring stability and safety.

4. Is the USB port installation safe?

Yes, the USB port is protected by a closing flap, while the electrical system is housed in a sealed technical compartment inside the structure.

5. Is it available in different colors?

Yes, the bench is available in various colors to suit different urban contexts.

Mini buying guide:

If you are looking for an **urban furniture bench** that combines **modern design and advanced functionality**, this model represents an ideal choice.

The **galvanized steel structure** ensures long durability and resistance to atmospheric agents, while the **okumè wood seat** offers comfort and elegance.

The **integration of a USB port** is an innovative plus, perfect for public spaces frequented by young people and professionals who need to recharge their devices.

To ensure maximum durability over time, **periodic maintenance of the wooden parts** is recommended, with the application of specific protective oils.

Thanks to its **versatility and resistance**, this bench is perfect for improving the use of urban spaces, offering users a comfortable seat and a modern solution for recharging mobile devices.

Urban furniture bench, modern design bench, bench with USB port, steel and wood bench, resistant bench for public spaces, urban bench with USB charging.
